

Learning and Growing Together

We nurture and care for each other

We place great importance on nurture in our federation so that the children feel safe, cared for and feel that they belong. Both schools are small and because of this we know each and every child extremely well. We like to get to know our families well; we work together to help and support in any way we can. Our children learn how crucial it is to nurture each other and we see our older children nurturing our younger children in many ways.

We are vigilant in keeping our children safe and make sure that children know how to keep themselves safe.

We encourage children to talk about their feelings and emotions and will always offer a listening ear, care and support on the more difficult days.

There is mutual respect. Just as staff care for the children, the staff also care for each other and work as a united team.

Our door is always open to families who want to talk and may need additional help at certain times in life.

We encourage children to take pride in their classroom and their school to make sure it is warm, welcoming and a positive place to be.

We want children to express themselves as individuals sharing their views and opinions.

We seek additional support from outside agencies for individuals who may need specialist help.

Our Christian values underpin our nurturing approach.

We always listen.

Nurturing a child's sense of personal worth and therefore hope and dreams for a wonderful future is perhaps the most important responsibility of every grownup in a child's life.
