

St Cuthbert's CE Primary School

St Cuthbert's CE Primary School uses a system called 'Parent Pay'. Parent pay is a secure online system where you can pay for school meals, trips, uniform, Breakfast and After School Club or Nursery sessions. It works rather like any other online website such as Amazon where you add items that are linked to your child/children and then checkout making one payment.

On admission to St Cuthbert's CE Primary School I will send you login details with a temporary username and password. You then log on to the system where you can change your username and password and merge your children's accounts if you have more than one child. If you ever forget your password let me know in the office and I can reset it for you.

Parent Pay is a completely secure web site and you will only view your child/children's payment information. The secure server software encrypts all personal information including card numbers when payments are being made. The encryption process ensures all details are securely transmitted over the internet. It is compliant with the latest industry standards and all payments are processed through a PCI DSS certified internet payment gateway.

I hope this gives you enough information, and if you would like to have a look the web site address is www.parentpay.com.

Regards

Ang Lumley
