

Year 5/6 Learning Letter Spring 2018

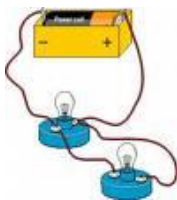

Dear Parents,
Happy New Year & I hope you all had an enjoyable Christmas.

Learning this term:

During the term we will be studying Ancient Greeks, looking at their life, achievements and influence on the world today. This cross-curricular project will incorporate work in English, history, art, geography, science, maths, P.S.H.C.E. and computing.

Our science this term will include materials (including their properties & how they can be separated & changed) and electricity. We hope to combine the electricity unit with our Design Technology using, switches, circuits, buzzers & lights to make moving fairground models.

Our RE unit- 'What can make our community more tolerant & respectful?' will include looking at major world religions.

In computing we will be developing our coding skills using Scratch programming.

Any photographs, resources or expertise linked to any of topics would be much appreciated.

PE: Our regular PE days continue to be Tuesday & Wednesday. PE kits should include: white t shirt, blue or black shorts, sweatshirt, tracksuit bottoms & trainers; please ensure these are all named.

Robinwood Residential

We are all getting excited about our upcoming residential. (March 12-14) Later in the term there will be an information evening and I will be sending out medical forms and a kit list shortly.

Homework will continue to be given, as last term. (daily maths homework & reading) We do appreciate your involvement with homework; it does make a significant difference to your child's progress.

If you have any questions please do not hesitate to come & chat with me. Thank you for your continued support with homework etc.

Yours sincerely,

Mrs R Holmes
